DETAILED ACTION

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-6 and 13-16, drawn to a method of calibration, classified in class 250, subclass 505.1.
- II. Claims 7-12, drawn to an apparatus for providing heat to an infant, classified in class 600, subclass 22

The inventions are distinct, each from the other because of the following reasons:

Inventions Group II and Group I are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the apparatus can be used in a materially different process such as one with or without a temperature sensor.
